SUMMARY

Senior Frontend Engineer with 5+ years building performant, scalable, and accessible enterprise-level web applications. Highly proficient in React.js, Next.js, Typescript and WordPress. Architected component-driven UI, that led to reduced load times, improved web metrics and also increased user engagement significantly. Adept at mentoring juniors, collaborating cross-functionally, and enforcing best practices in SEO, accessibility, and security to meet business-critical goals

EXPERIENCE

Freelance Frontend Engineer(Contract-based)

Freelance

June 2022 - Present, Remote

- **Architected and developed** production grade web applications using HTML, CSS, JavaScript, TailwindCSS, React.js, Next.js, TypeScript.
- **Led and standardized** UI/UX revamps that led to **reduction in load times by 40%** based on Lighthouse metrics and also **increased user engagement**.
- Collaborated cross-functionally with designers, backend engineers, and other stakeholders across multiple time zones to deliver web applications that drive business growth.
- **Implemented** best practices in accessibility, SEO, and security to deliver web applications that drive business growth.

PROJECT

AI-Powered Interview Prep Platform

[recruiteek-ai.vercel.app](#)

- **Tech:** Next.js, TypeScript, Firebase, Google Gemini AI, Vapi (AI Voice Agent), Vercel.
- **Developed** a conversational AI platform using Google Gemini AI to generate targeted interview questions and provide real-time feedback, simulating a human interviewer.
- **Integrated** Vapi—an AI-powered voice agent—to conduct voice-based mock interviews, enabling more immersive practice sessions.
- **Built** secure authentication and scalable data storage via Firebase Authentication, Firestore, and Cloud Functions.
- **Deployed** globally on Vercel.

EDUCATION

Bachelor of Science in Computer Engineering

Obafemi Awolowo University · Nigeria · 2026
